What's New in the Clipto?

Download and install the free trial version of Clipto, and see what this note-taking app is capable of. The first thing that you will notice when you launch Clipto is the stylish and clean interface. In fact, this is the app that keeps things simple and intuitive. There are five buttons on the left side of the screen, while the contents of the clipboard entries are listed on the right. To add a note, you need to open the note browser. Just click on the + button in the upper left corner of the window, and you will be directed to the note creation window. After entering a title and adding tags, you can enter the text of the note. It is automatically hyperlinked, which means that you can navigate to the web page where it was found with just one click. Clipto makes it easy to search for a particular note, so you can find all the notes you entered, as well as those that you created.

Clipboard monitor You can also monitor the clipboard contents. Simply double-click on the clipboard icon in the lower left corner of the window, and the contents of the clipboard will be previewed. There are two ways to define what makes a note a clipboard entry - by copying the string from the web or the clipboard, and by clicking on the star icon to create a new note for it. This method gives you two options - you can save the note as a new note, or open it. Clipboard monitor & merge several notes It is possible to monitor the contents of the clipboard, and create new notes from them. Double-clicking on the clipboard icon will open the note browser. In order to add a note, you need to select the option "clipboard monitor" in the top menu bar. Then, you need to choose how you want to start adding notes to the clipboard. From there, you can add any notes from the clipboard, and then choose the way each one is separated (spaces, stars, lines, etc.). After the notes are separated, you can add a title and tags. To add a hyperlink to a note, click on the + button on the right side of the window. Then, paste the contents of the link you want to share. You can also add a custom tag to each note - in that case, a corresponding option is available when you add the hyperlink. Clipto has an option to automatically save all changes made to a note, but you can also manually save them. To sync your notes, you need to create an account and enter the email and password. After clicking on "Create", you will be directed to the account creation window, where you will be asked to fill in your first and last name, email, password and optional company name. When you are finished, you will need to verify your email address. To

System Requirements:

It is not recommended to use it on a computer that does not have at least an Intel Core i5 processor (6 GB of RAM and 8 GB of free space of hard disk). However, those specifications are not mandatory and it will function even on an old laptop. Supported Operating Systems: Currently, it is available for Windows 10, Windows 7, Windows 8.1, Windows 8, Windows Server 2012, Windows Server 2008, Windows Vista, macOS, and Linux. Frequently Asked Questions How much does it cost? Open source software
