The band, originally from South Africa, has been active since 2000, and has released four albums to date on Two Bulls' now internationally owned Phonofone label. They are a four-piece group with Khaya May and Omphale (aka Abby May) on vocals, Leon Maar, Wesley Potonane (aka Spiky), and Emil Miller (aka Martin Miller) on guitars, and DJ Roland on the turntable. Kaiwabo's sound has been described as "mixed samplings of funky soundscapes" and "new age soul." The band released The Lost World in 2002, an album that caught the attention of Randall and Dave Ellefson, to co-found the Grammy-winning power-

## What's New In MyColors?

MyColors is the easiest tool for customizing your Windows desktop. MyColors will allow you to change just about everything: layout, appearance, colors and font. MyColors provides a much larger range of themes than the original Windows 7 Start Menu and shows wallpapers that are exclusive to it. MyColors lets you add widgets to the Windows desktop, and you can easily switch back and forth to the factory-installed system settings. What's New: MyColors 2.0 now also supports Windows 7. With the new version of MyColors, you will be able to customize the desktop in the following ways: \* Theme: Change the background image, title, color, and transparency of the title bar. \* Appearances: Change the various visual settings of the desktop (style, icons, layout, etc) \* Wallpapers: Change the background images of the desktop. \* Themes with startup/shutdown: Change the wallpaper displayed when you login/logout. \* Displays: Change the desktop layout. \* Appearances: Change the various visual settings of the desktop (style, icons, layout, etc) \* Widgets: Add widgets to the desktop. \* Classic Settings: The users of Windows 7 are the owners of classic start menu.
