I need to install a clean windows installation and to do that I need to download the ISO file for Windows 8.1 Single Language with Bing (64 bit). Where can I ... Question asked: 8 years ago Last activity: 8 years ago I need to install a clean Windows installation, and to do this I want to download the ISO file for Windows 8.1 Single Language with Bing (64 bit). Where can I get one? I don't want to get an installation DVD or anything like that. I just want to download an ISO file. Does anyone know the exact location or link Is this possible? And it has to be done before your computer is up and running, otherwise it won't work.
