"Its diverse online environment will likely keep people hooked from beginning to end." AppSpy "I was a little hesitant to jump into my very first online RPG but I'm more than glad that I did. It was a fun and interesting experience." AndroidRunDown "The gameplay is solid as hell...for a free game." Android Central "The events happen so fast that it's hard to distinguish what is the main event and what is just a side event. But there is always enough going on that you're never bored." AndroidPolice "Everyone's a hero when you play EDGE in towns, but when push comes to shove, the NPCs aren't your best pals." 1UP "It gets the balance between dungeon crawling, character building, and online play just right. You're consistently rewarded for exploring the world and the other party members in dungeons as well." Touch Arcade "the prospect of being able to team up with various individuals was really exciting and everything is done right, from chat through to in-game voice communication." IGN "The online play is just as good as you'd expect, and keeps things interesting while not doing too much of itself." CGMagazine "And now, you can grab the free game while it's discounted." Modjojo "It's filled with great content, but the game could have really benefited from some polish. You can tell it was made by a single developer, and there are some clunky parts." PocketGamer "If you like dungeon RPGs, online multiplayer, and an engaging story, you owe it to yourself to give this game a shot." GameTunnel "This is a very fun, very absorbing fantasy RPG." Nexon AppSpy "Ultimately, Elden Ring is a solid RPG with a handful of bright spots that mostly outweigh its rough edges." Snapzwap "All in all, it's a pretty enjoyable game. While it definitely has its flaws, the content is good enough that it stands out from similar options." AppAdvice "If you really can't get enough of the fantasy RPG genre, Elden Ring is for you."
