The Lock 'n Load Tactical Series brings you gritty and

tough combat simulation scenarios that take place in WW2. Players command US infantry, British paratroopers, and German troops as they engage in small scale combat. It is a violent, fast-paced and fast-learning game, where only tactical leadership can lead to victory. Key Features:

- The Lock 'n Load Tactical Series brings you gritty and tough combat simulation scenarios of WW2 combat in Western Europe
- Heroes of Normandy Battle Pack 1 is no exception
- Includes eight scenarios that cover the different events of the Normandy Campaign, from D-Day in 1944 to Operation Market Garden, in October 1944
- Unique hex maps printed on heavy cardboard cutouts, featuring detailed graphics
- All infantry squads are Airborne, except scenario enemy
- Choose a side: Marines, British, or Germans
- Four virtual maps included
- 28 counters and a color map
- Eight 10mm scale scenarios
- Accessible to Warseer owners for a little over 1/20th of the price
- 72 pages of rules
- 87 fully illustrated hex cards
- 3 risk-free scenarios
- 7 digital scenarios: Operation Market Garden (10 maps), North Atlantic (6 maps), Push on Japan (8 maps), Market Garden (5 maps), US Army in Normandy (3 maps), US Navy in Normandy (3 maps), and War of the Pacific (2 maps)

Savitar Peak Savitar Peak, at above sea level, is the fourth highest peak in the Rocky Mountains of North America. The peak is in the Lewis Range, located in the U.S. state of Montana, and is part of the Pacific Crest National Scenic Trail. Savitar Peak is northwest of Griggs Peak, and the two

peaks are visible from each other. Hiking The peak may be climbed via a hiking trail that begins southeast of Donoho Pass, the trailhead for Donoho Pass Road, which crosses Savitar Pass at an elevation of, bypassing the peak and closer access to Griggs and other peaks in the range. Play the GP50 on the Norfolk Southern N-Line Route (Train Simulator DLC Map N-Line.vtmx) First Storyline: Morning Delivery (Edwards, North Carolina to Asheville, North Carolina) After a morning service to Asheville, North Carolina, the GP50 is released from the train as the FS arrives in North Carolina.

Q: jq 'contains("system.daysTo")' does not work with awk I have a JSON file that looks like the following: { "id": "someID", "timestamp": 1483758068405, "title": "someTitle", "url": "someURL", "system.custom": { "something": "something" }, "system.user_by": { "system.build_by": { "time": 1483757918405, "system.id": "someID" } }, "tags": [{ "tag": "test" }] } I have a jq command like the following: jq -r '.tags[]|contains("test")' The command works perfect if I have tags: aaa or bbb but not for contains("test") because of the fact system.daysTo is not followed by a number. Any ideas on what to do here? A: Your issue is that you are using the contains function in a different context than what you think it is. In order for your jq statement to work, the jq function needs to be called in the context of looking for a string in an object (which it sees as a single-element array) instead of looking for a substring in a scalar object. It is not possible to turn something like this to work while preserving your input (and your desired output). The current version of jq does not have a way to have

it operate differently depending on context

What's new in TIGER GAME ASSETS TXTBOX WHITE:

Enigmatis: The Ghosts of Maple Creek is an adventure series produced by Troll Lord Games. It is a goal-based point-and-click adventure game where players solve puzzles to advance through a quest line. The first game in the series, **Enigmatis: The Ghosts of Maple Creek**, was released in 1995, and was followed by three other games in the series, each of them released around the third anniversary of the original game.

Gameplay **Enigmatis: The Ghosts of Maple Creek** is the first title in a series of four interactive fiction point-and-click adventure video games. The game requires the player to interact with the environment to progress. Most of the time the gameplay requires players to decide what they will do next. In order to play the game, the player must select the next action to take. Left clicking will generally look at the surroundings around them, while right clicking will interact with the environment and some items.

Plot Development and release **Enigmatis: The Ghosts of Maple Creek** was developed by Troll Lord Games and published by Kitchen Sink in 1995. The game was originally released in Europe with a cover dated January 1996. The game was later released in North America under the name **Enigmatis 2**. All four games in the series were released yearly around the third anniversary of their respective earlier installments. Since the first game only provides one map, the second release added more maps. The third game received more in-game areas than the first two. The fourth game contains the most in-game areas than any of the prior three. **Setting** **Enigmatis: The Ghosts of Maple Creek** takes place in the American Northwest at the end of the 19th century. The area is now

located in the Puget Sound area of Washington, and spans 70 miles. The game follows the course of the North Fork of the Skokomish River and its various riverside manors. The player character is a fortune hunter and puzzles are used to conceal the true nature of their goals. Characters The various characters the player encounters in the game include Thomas Braidwood Wright, a wealthy man and main antagonist. Wright is looking for the mysterious Dr. Steffan Spillett. Spillett and Wright were best friends when they were children and Wright had no problems trying to use Spillett for his own personal gain when they were in the city of Seattle. The player also encounters a business man named William Cameron, who is a spy and trying
