HyperMotion technology will be available in five areas of the game - Squad and Training, Skill Movements, Skill Sets, New Player Creativity, and New Tactics. In addition to the new HyperMotion technology, FIFA 22 will feature improved accuracy, improved ball physics, expanded depth perception for X-Ray in Motion View, 3D player models, and broadcast quality Player Spots. HISTORY OF A REAL-LIFE GAMING EVENT On June 9-11, 2015, FIFA invited 24 teams to a 4-day gaming event held at Microsoft's headquarters in Redmond, WA. The 24 teams - all of whom were invited by EA Sports, won a trip to Brazil to play a non-simulation 4 day tournament of FIFA Mobile, FIFA Ultimate Team, and FIFA 16 Ultimate Team. AFTER 3 DAYS IN BRAZIL WITH 30 OTHER ATHLETES FROM ACROSS THE COUNTRY, THE TOP TWO TEAMS WERE DRAWN TO PLAY AND THE TOP TEAM WINS! Read the full article from the FAFIA heads. This year's event was completely different from last year's, where four of the 24 teams came from the same league. This year there were teams from the United States, Canada, Mexico and Brazil. The goal of the FIFA Squad run event is to allow teams to utilize their game mechanics to their fullest, face their toughest competition in real-time and learn more about the newest FIFA game. If you happen to be a club that has been invited to this event check out the FIFA Squad event page on EventBrite.com for more information. WE HOPE TO SEE YOU AT THE NEXT EVENT! GOOD LUCK TEAMS! INCREDIBLE SPEED! — AFTER TEN DAYS OF TRAINING! In the video below EA Sports programmer, Dani Olazabal, talks about the incredible amount of effort put in to get a game like FIFA to be as authentic as possible. FIFA 22 NEWS

Features Key:

- New Be a Pro Mode gives us the opportunity to create a side of the Pro's journey from youth through to the Estadi, the ultimate goal of any true football fan. Build your virtual team yourself, with in game coaching, to even more tasks like training and playing in-game tournaments.
- Clubs and kits throughout Ultimate Team are the new set in motion. The kits are based upon the new 3D McLaren GT tech that highlights its beauty through its internal structures including the mesh and boards. At the same time, the kits are closer to the futebol that is more confident of popular opinion, perfect for local football clubs to develop and thrive.
- Career Mode has been recreated from the ground up using the EA TRAX motion capture system. Inspired by real life gameplay, this mode now reflects the new HyperMotion Technology. Players move with and around each other realistically with quick changes of direction and body position - even when you are interfering with the ball. - No more clumsy juggling!
- Pace and balance have been increased, with movement being more precise.
- FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
