Here is a video with 10 minutes of the gameplay: Hey I would like to know if you can tell me which multiplayer map to be the best for Zombie horde and which for the survivors. I'm new to this game and it's my first time so I'm trying to choose a good map that will give me a good challenge. Thanks in advance Goals: 1. setup simple rooms: crates, doors and boxes2. map design concept: crates, doors and boxes3. control system development: room like crates, doors and boxes4. playability : reading of the game and user experience Components: Crates and boxes Possible architecture: simple one Example of rooms concept: Spoiler: a - door (open and close) b - the square (print c

- window (half transparent)(print) Example of doors design Spoiler: (collision) Example of boxes (crate) design Spoiler: (collision) Work or: use my own design or it is possible to use one that I already have I know what people say, but its my first project and I'm having problem to find source code.
