Â Search the Internet for more information about your particular phone and the numbers on it. The best program imei decodare telefoane to do it successfully is Rom Lock. Descrierea scriptului: Uitarea telefoanelor fizice este gata. Â În 2009, Google a început să folosească literele sau codurile din telefoane pentru a putea căuta mai repede. Â Programul este recomandat in special pentru acele telefoane care vor să transmită date din memorie toate persoanele implicate.1. Field of the Invention The present invention relates to the detection of defects in the transverse cross-sections of a sublayer (or plane) of a solidified vertical integrated circuit, a method of manufacturing the same, and a method of detecting defects in the transverse cross-sections of a sublayer of a vertical integrated circuit. 2. Description of the Related Art The trend in the semiconductor device industry is to integrate more semiconductor circuits into a smaller area. It is therefore preferable that a semiconductor chip is made small, in which each integrated circuit is highly integrated, and the supply voltage and the power consumption are made lower. Further, in recent years, as semiconductor devices have been miniaturized, it has been desired that the process for manufacturing them is improved. In the fabrication of a semiconductor device, a vertical integrated circuit (to be referred to as a "VIC" hereinafter) is formed as follows. A semiconductor wafer having a plurality of conductive patterns in a multiplicity of thin film layers (to be referred to as "layers" 6d1f23a050
